

Safety precautions Fremont Eye Care Physician has taken:

- Our waiting room is empty because we have patients wait in the car.
- There are temperature check and survey of symptoms taken at the door.
- We have a 100% mask wearing policy in the office.
- You will TYPICALLY remain in one pre-sanitized room the entire time of your visit. One will typically see no more than 2 individuals the technician and the doctor during your visit. They both wear N95 grade masks
- Optical shop is by appointment only in order to eliminate in office crowding.
- State of the art UV sanitizer is used to sanitize all frames in the optical shop
- Our HVAC (Heating/AC system) is less than a year old and equipped with viral particle sized filtration system.
- We have a no touch checkout. Once you are done with your doctor there is no need to linger you can go directly to your car and home.
- We have an in office contact tracing program. This keeps track of who was in contact with whom while in the office.
